

People **AI**

**Visionary Compliance for
Seamless Operations**

Powered by DAI's PixIQ Vision AI Platform, **People AI** processes camera video feeds for indicators to monitor people in an industry environment.

People AI Edge

Vision for Productivity & Compliance

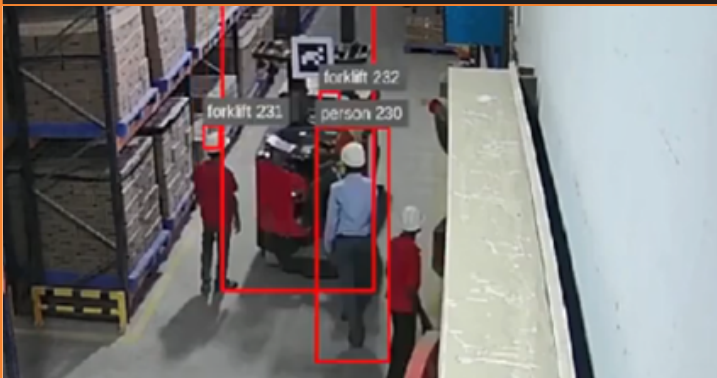

Plug & Play Vision AI Controller

- PixIQ controller stores AI models for cameras to monitor people on factories.
- Quick Deployment and easy to integrate with factory infrastructure.

One Solution for Many Scenarios

- Track people within a designated sector for safety and SOP (uniform, hardhat).
- Flag Unauthorized Personnel in Area.
- Productivity Monitoring of Workers.

SOP and Safety Monitoring

Multi-Camera Array Monitoring
